

# 2018 Safety Stand Down Week

June 17-23, 2018

The theme of the 2018 Safety Stand Down is “Be Aware — Get Checked.”

Safety Stand Down focuses on the value of annual medical evaluations/physicals for the fire and emergency services organizations.

Firefighters face many risks, such as heart disease, cancer, diabetes, post-traumatic stress disorder and more; early detection through annual medical evaluations and physicals saves lives.
